## ASSEMBLY BILL

**No. 723**

---

**Introduced by Assembly ~~Member Chiu~~ Members *Chiu and  
Thurmond***

February 25, 2015

---

An act to amend Sections 50833, 51335, and 51340 of the Health and Safety Code, relating to housing, and declaring the urgency thereof, to take effect immediately.

### LEGISLATIVE COUNSEL'S DIGEST

AB 723, as amended, Chiu. Housing: finance.

(1) Existing law requires the Department of Housing and Community Development to allocate funds under the federal Community Development Block Grant Program to cities and counties. Existing law requires the department to determine and announce, in the applicable Notice of Funding Availability, the maximum amount of grant funds that may be used for economic development projects and programs, housing for persons and families of low or moderate income or for

purposes directly related to the provision or improvement of housing opportunities for these persons and families, and for cities and counties that apply on behalf of certain Indian tribes. Existing law requires the department to develop and use certain eligibility criteria and requirements for certain economic development fund applications.

This bill would authorize the Department of Housing and Community Development to issue a Notice of Funding Availability under which the director of the department could determine that an applicant previously awarded funds is eligible to apply for, and receive, additional funds pursuant to the Community Development Block Grant Program, without regard to whether the applicant has expended at least a certain percentage of funds previously awarded.

(2) Existing law authorizes the Housing Finance Agency to issue revenue bonds for the purpose of financing the acquisition, construction, rehabilitation, refinancing, or development of multifamily rental housing and for the provision of capital improvements in connection with, and determined necessary to, that multifamily rental housing. Existing law requires no less than 20%, or 15% for those multifamily rental housing developments located in a target area, as defined, of the total number of units in a multifamily rental housing development, financed or for which financing has been extended or committed from the proceeds of sale of each bond issuance of the agency, to be for occupancy on a priority basis by lower income households. Existing law further requires that not less than  $\frac{1}{2}$  of the units required for occupancy on a priority basis by lower income households be for occupancy on a priority basis for very low income households.

This bill would authorize the agency to waive the priority requirements for very low income households upon approval of the board and a specified determination.

Existing law prohibits rental payments on units required for occupancy by very low income households paid by persons occupying the units from exceeding 30% of 50% of the area median income, and sets forth occupancy assumptions for adjusting rents for household size, as specified.

~~This bill would instead prohibit rental payment on units required for occupancy by lower income households paid by persons occupying the units from exceeding 30% of 80% of the area median income, and would~~ *would, commencing September 1, 2016,* authorize the agency to also utilize occupancy assumptions that it has determined are appropriate

and commercially reasonable for financing *extended* pursuant to these provisions.

Existing law provides that the authorization to issue revenue bonds for these purposes constitutes an alternative method to issue bonds for making construction loans and mortgage loans for multifamily rental housing.

This bill would instead provide that the authorization to issue revenue bonds for these purposes constitutes an alternative method to finance construction loans and mortgage loans for multifamily rental housing.

(3) This bill would declare that it is to take effect immediately as an urgency statute.

Vote:  $\frac{2}{3}$ . Appropriation: no. Fiscal committee: yes.  
State-mandated local program: no.

*The people of the State of California do enact as follows:*

1     SECTION 1. Section 50833 of the Health and Safety Code is  
2     amended to read:  
3     50833. (a) The department shall determine and announce in  
4     the applicable NOFA the percentage of the total amount of the  
5     State Block Grant Program funds set aside for economic  
6     development that shall be allocated to make economic development  
7     planning and technical assistance grants to eligible small cities or  
8     counties for business attraction, retention, and expansion programs  
9     for the development of local economic development strategies,  
10    predevelopment grant feasibility studies, and downtown  
11    revitalization programs. Eligible small cities or counties may  
12    contract with public agencies or nonprofit economic development  
13    corporations and other eligible subgrantees or for-profit  
14    corporations or entities to provide these services. Each applicant  
15    shall be required to provide a cash match of up to 25 percent of  
16    the total amount requested. A technical assistance grant received  
17    under this set-aside is in addition to the city or county ceiling,  
18    under Section 50832, or its ability to apply under the economic  
19    development or general program set-asides. The department shall  
20    determine and announce in the applicable NOFA the maximum  
21    per year grant amount. Each applicant shall not receive more than  
22    two grants per year and shall be eligible to apply each year,  
23    although no applicant shall receive grants in excess of the  
24    maximum amount determined by the department and announced

1 in the applicable NOFA in any one year. Funds not applied for or  
2 allocated under this section may be used for other economic  
3 development purposes under Sections 50832 and 50832.1.

4 (b) The department shall determine and announce in the  
5 applicable NOFA the percentage of the total amount of the State  
6 Block Grant Program funds not used for economic development  
7 that shall be set aside to make technical assistance grants to eligible  
8 small cities or counties for purposes including, but not limited to:  
9 inventory of housing needing rehabilitation in the district, income  
10 surveys of area residents, and any general studies of housing needs  
11 in the district. Each applicant shall be required to provide a cash  
12 match of up to 25 percent of the total amount requested. A technical  
13 assistance grant received under this set-aside is in addition to the  
14 city or county ceiling or its ability to apply under the economic  
15 development or general program set-asides. Unexpended funds  
16 allocated under this section shall revert to the general program,  
17 but not to the economic development set-aside. The department  
18 shall determine and announce in the applicable NOFA the  
19 maximum grant amount per application. Each applicant shall not  
20 receive more than two grants per year and shall be eligible to apply  
21 each year, although no applicant shall receive grants in excess of  
22 the maximum amount determined by the department and announced  
23 in the applicable NOFA in any one year.

24 (c) If, under federal law, the economic development planning  
25 and technical assistance grants and the general allocation planning  
26 and assistance grants are considered to be administrative  
27 expenditures, the department may reduce the percentages of the  
28 set-asides by up to the amount necessary to remain within the  
29 allowable limits for administrative expenditures.

30 (d) Two or more jurisdictions may pool their funds and make  
31 a joint application for the same project.

32 (e) General administrative activity planning studies shall not be  
33 counted against allocations under this section.

34 (f) The department may issue a NOFA under which the director  
35 may determine that an applicant with one or more current  
36 Community Development Block Grant agreements signed in 2012  
37 or later, for which the expenditure deadline established in the grant  
38 agreement or agreements has not yet passed, is eligible to apply  
39 for and receive an award of, funds pursuant to this chapter, without  
40 regard to whether the applicant has expended at least 50 percent

1 of Community Development Block Grant Funds awarded in 2012  
 2 or thereafter. For any applicant that is so determined, the director  
 3 shall include in the application file a written confirmation of  
 4 eligibility and any award of funds. An application made pursuant  
 5 to the director's determination under this section may be evaluated  
 6 solely on the basis of eligibility, need, benefit, or readiness, without  
 7 regard to any specific rating criteria provided by Section 7078 of  
 8 the California Code of Regulations. The awarding of funds to an  
 9 applicant pursuant to the director's determination under this section  
 10 does not exempt those funds from consideration under any  
 11 expenditure requirement under law.

12 SEC. 2. Section 51335 of the Health and Safety Code is  
 13 amended to read:

14 51335. (a) (1) Not less than 20 percent of the total number of  
 15 units in a multifamily rental housing development financed, or for  
 16 which financing has been extended or committed, pursuant to this  
 17 chapter shall be for occupancy on a priority basis by lower income  
 18 households. If a multifamily rental housing development is located  
 19 within a targeted area, as described by Section 143(j) of Title 26  
 20 of the United States Code, not less than 15 percent of the total  
 21 number of units financed, or for which financing has been extended  
 22 or committed pursuant to this chapter, shall be for occupancy on  
 23 a priority basis by lower income households. Not less than one-half  
 24 of the units required for occupancy on a priority basis by lower  
 25 income households shall be for occupancy on a priority basis for  
 26 very low income households. However, with approval of the board,  
 27 the agency may waive the priority requirements for very low  
 28 income households in designated geographic areas of the state  
 29 upon a determination that the housing needs of a substantial number  
 30 of lower income households will not otherwise be met.

31 The rental payments on the units required for occupancy by  
 32 ~~lower~~ *very low* income households paid by the persons occupying  
 33 the units (excluding any supplemental rental assistance from the  
 34 state, the federal government, or any other public agency to those  
 35 persons or on behalf of those units) shall not exceed 30 percent of  
 36 ~~80~~ 50 percent of area median income. If the sponsor elects to  
 37 establish a base rent for all or part of the units for lower income  
 38 *households and very low income* households, the base rents shall  
 39 be adjusted for household size. In adjusting rents for household  
 40 size, the agency shall either assume that one person will occupy a

1 studio unit, two persons will occupy a one-bedroom unit, three  
2 persons will occupy a two-bedroom unit, four persons will occupy  
3 a three-bedroom unit, and five persons will occupy a four-bedroom  
4 unit, or *commencing September 1, 2016*, utilize occupancy  
5 assumptions that it determines to be appropriate and commercially  
6 reasonable for financing extended pursuant to this chapter.

7 (2) The local agency issuing permits for the development of the  
8 multifamily rental housing development shall consider  
9 opportunities to contribute to the economic feasibility of the units  
10 and to the provision of units for very low income households  
11 through concessions and inducements such as the following:

12 (A) Reductions in construction and design requirements.

13 (B) Reductions in setback and square footage requirements and  
14 the ratio of vehicular parking spaces that would otherwise be  
15 required.

16 (C) Granting density bonuses.

17 (D) Providing expedited processing of permits.

18 (E) Modifying zoning code requirements to allow mixed use  
19 zoning.

20 (F) Reducing or eliminating fees and charges for filing and  
21 processing applications, petitions, permits, planning services, water  
22 and sewer connections, and other fees and charges.

23 (G) Reducing or eliminating requirements relating to monetary  
24 exactions, dedications, reservations of land, or construction of  
25 public facilities.

26 (H) Other financial incentives or concessions for the multifamily  
27 rental housing development which result in identifiable cost  
28 reductions, as determined by the agency. The agency shall ensure  
29 that the local agency issuing permits for the development considers  
30 its responsibilities under this section and makes a good faith effort  
31 to enhance the feasibility of the project and to provide housing for  
32 lower income households and very low income households.

33 (3) The agency shall not permit a selection criteria to be applied  
34 to certificate holders under Section 8 of the United States Housing  
35 Act of 1937 (42 U.S.C. Sec. 1437f) that is any more burdensome  
36 than the criteria applied to all other prospective tenants.

37 (4) It is the intent of the Legislature that the agency finance  
38 projects that assist in meeting the urgent need for providing shelter  
39 for lower income households, very low income households, and  
40 persons and families of low or moderate income. To that end, the

1 quality of materials and the amenities provided should not be  
 2 excessive so as to hinder the prospect of achieving the stated goal.  
 3 The Legislature finds and declares that the design standards utilized  
 4 by the agency in the past including, but not limited to, the design  
 5 requirements adopted to govern the new construction program  
 6 under Section 8 of the United States Housing Act of 1937 (42  
 7 U.S.C. Sec. 1437f), are substantially in excess of those required  
 8 for a decent, healthy, and safe residential unit and intends, by the  
 9 amendment adding this paragraph to this section by the Statutes  
 10 of 1985, that the agency finance multifamily rental developments  
 11 with substantially less costly design requirements than those  
 12 required by the agency prior to January 1, 1986.

13 (5) It is the intent of the Legislature that the agency finance  
 14 projects that assist in meeting the urgent need for providing shelter  
 15 for families. To that end, developments with three- and  
 16 four-bedroom units affordable to larger families shall have priority  
 17 over competing developments.

18 (b) As a condition of financing pursuant to this chapter, the  
 19 housing sponsor shall enter into a regulatory agreement with the  
 20 agency providing that units reserved for occupancy by lower  
 21 income households remain available on a priority basis for  
 22 occupancy until the bonds are retired. The regulatory agreement  
 23 shall contain a provision making the covenants and conditions of  
 24 the agreement binding upon successors in interest of the housing  
 25 sponsor and, notwithstanding any other provision of law, these  
 26 burdens of the regulatory agreement shall run with the land. The  
 27 regulatory agreement shall be recorded in the office of the county  
 28 recorder of the county in which the multifamily rental housing  
 29 development is located. The regulatory agreement shall be recorded  
 30 in the grantor-grantee index to the name of the property owner as  
 31 grantor and to the name of the agency as grantee.

32 (c) The agency shall ensure that units occupied by lower income  
 33 households are of comparable quality and offer a range of sizes  
 34 and number of bedrooms comparable to those units which are  
 35 available to other tenants.

36 (d) (1) The agency shall give priority to processing construction  
 37 loans and mortgage loans or may take other steps such as reducing  
 38 loan fees for multifamily rental housing developments which  
 39 incorporate innovative and energy-efficient techniques which  
 40 reduce development or operating costs and which have the lowest

feasible per unit cost, as determined by the agency, based on efficiency of design, the elimination of improvements that are not required by applicable building standards, or a reduction in the amount of local fees imposed on the development.

(2) The agency shall give equal priority to processing construction loans and mortgage loans or may take other steps such as reducing loan fees on multifamily rental housing developments which do any of the following:

(A) Utilize federal housing or development assistance.

(B) Utilize redevelopment funds or other local financial assistance, including, but not limited to, contributions of land, or for which local fees have been reduced.

(C) Are sponsored by a nonprofit housing organization.

(D) Provide a significant number of housing units, as determined by the agency, as part of a coordinated jobs and housing plan adopted by a local government.

(E) Exceed a ratio whereby 20 percent of the units are reserved for occupancy by lower income households, or whereby 10 percent of the units are reserved for occupancy by very low income households, or which provide units for lower income households or very low income households for the longest period of time beyond the minimum number of years.

(e) (1) New and existing rental housing developments may be syndicated after prior written approval of the agency. The agency shall grant that approval only after the agency determines that the terms and conditions of the syndication comply with this section.

(2) The terms and conditions of the syndication shall not reduce or limit any of the requirements of this chapter or regulations adopted or documents executed pursuant to this chapter. No requirements of the state shall be subordinated to the syndication agreement. A syndication shall not result in the provision of fewer assisted units, or the reduction of any benefits or services, than were in existence prior to the syndication agreement.

SEC. 3. Section 51340 of the Health and Safety Code is amended to read:

51340. This chapter constitutes an alternative method to finance construction loans and mortgage loans for multifamily rental housing pursuant to the provisions of this chapter.

SEC. 4. *Nothing in this act shall be interpreted to modify the terms of any regulatory agreement recorded on or before August*

1 31, 2016, including, but not limited to, terms that incorporate  
2 Section 51335 of the Health and Safety Code by reference.

3 ~~SEC. 4.~~

4 SEC. 5. This act is an urgency statute necessary for the  
5 immediate preservation of the public peace, health, or safety within  
6 the meaning of Article IV of the Constitution and shall go into  
7 immediate effect. The facts constituting the necessity are:

8 The lack of availability of affordable housing is of vital statewide  
9 importance and must be addressed as quickly as possible, and  
10 therefore this act must take immediate effect.
